Flock

Flock for the Suffolk County Water Authority

{{PC_Hero Tagline P1}}

ffolk County Water Authority's pumping station in Riverhead. The
thority passed a budget that includes a near 3% water rate hike.
edit: Joseph Sperber

Suffolk County Water Authority manages an extensive network of well-fields, treatment plants, and remote access roads serving 1.2 million Long Island residents. Keeping every site secure against unauthorized access, tampering, and vandalism—around the clock—is a constant operational challenge.

Flock Safety gives SCWA **real-time visibility across every facility and access road**, with LPR and fixed video monitoring that detects unauthorized entry and alerts staff immediately—protecting the water supply and keeping critical infrastructure secure, 24/7.

The Flock Advantage

The largest public-private safety network.
Our intelligent platform unites communities, businesses, schools, and law enforcement, combining their power to solve and deter crime together.

Technology that's always up-to-date.
Flock's platform ensures you get automatic updates and new features. We keep your tools modern and mission-ready.

Privacy-first. Always Accountable.
We built Flock with privacy at the core. Communities own their data and we include built-in transparency tools. You get safety, with accountability.

Everything connected, no silos.
Flock's open ecosystem unites all your safety tools — LPR, video, audio detection and third-party integrations — on one seamless platform.

Proven at Scale

- 20% of reported crime in the U.S. solved using Flock
- 5,000+ agencies using Flock across 49 states
- 2,000+ missing people reunited with families
- 1 in 3 law enforcement officers uses Flock
- 1,000+ Flock sensors on Long Island

Products for the SCWA

Flock installs quickly and connects directly with your existing systems. Installation, maintenance, upgrades and support are all included.

LPR CAMERAS

Deploy Falcon and Falcon LR cameras across New York's highway corridors and high-priority zones to create the primary statewide license plate recognition network NYSP requires. Re...

FLOCKOS

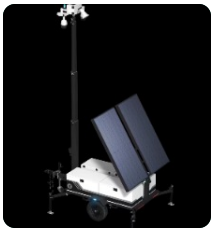
Unify LPR, video, audio, drone, and 911 data into a single Real-Time Crime Center dashboard that serves as NYSP's central intelligence coordination layer across all 62...

FLOCK NOVA

Activate Flock's free regional intelligence network to unify hot-list alerts and case data between NYSP and the hundreds of municipal, county, and tribal agencies across New York....

VIDEO INTEGRATION

Connect NYSP's existing third-party camera infrastructure—including systems from Avigilon, Genetec, Milestone, and others already deployed at state facilities and partn...



MOBILE SECURITY TRAILERS

Position solar-powered, self-contained trailers with integrated LPR, live video, and audio at highway hot-spots, construction zones, major events, and temporary command posts acro...

DRONE AS A FIRST RESPONDER (DFR)

Automatically dispatch a drone to high-priority 911 calls along remote highway stretches and rural areas where trooper response times are longest. Aerial situational awareness reache...

TRAFFIC ANALYTICS

Leverage anonymized traffic-flow and pattern data to identify the corridors, intersections, and time windows where fatalities, injuries, and property damage concentrate. These...

AUDIO DETECTION

Deploy Raven sensors at state facilities, barracks perimeters, and high-risk areas to detect gunshots, glass-break, and aggression events with sub-60-second alerts and locatio...

Flexible Technology to Match Your Goals

FEATURE	WHY IT MATTERS
Real-time hot-list alerts to troopers in the field	Deploy Raven sensors at state facilities, barracks perimeters, and high-risk areas to detect gunshots, glass-break, and aggression events with sub-60...
Unified statewide data coordination across all 62 counties	When a vehicle tied to an Amber Alert, stolen vehicle report, or wanted suspect passes a Flock camera anywhere in New York, troopers receive an...
Cross-jurisdictional intelligence sharing at no additional cost	FlockOS consolidates fragmented intelligence systems into a single platform that Colonel Mazzone's NYS Intelligence Center and BCI detectives can us...
Vehicle Signature capture at highway speed	Flock Nova connects NYSP with neighboring agencies across state and county lines so that a plate flagged by a local department automatically...
Transparent data governance and privacy-by-design architecture	Falcon LR cameras capture detailed Vehicle Signatures—including make, color, type, and distinguishing features—on vehicles traveling over 100...
Force multiplication for a staff-constrained agency	Flock's platform includes built-in audit trails, configurable data retention policies, and access controls that align with New York's privacy expectatio...
Rapid, infrastructure-free deployment for dynamic operations	With NYSP facing a well-documented retention crisis, technology must do more with fewer personnel. A typical agency that acquires an additional o...
hours, not weeks. For an agency responsible for everything from rural highway patrols to large-scale event security, this flexibility	Measurable return on public safety investment

Flock Safety is the single best tool I have seen in 30 years – enabling true community policing. Flock unites us with our neighbors and businesses and directly develops leads we would not develop without this technology.
